LAKE CLEANING &
CATERING SUPPLIES

One call does it all ! 408200

welcome

Lake Cleaning & Catering Supplies has developed from its early beginnings to become the Isle of Wight's premium supplier of Janitorial and Catering products. Frank Leonard established the business in 1984 in Lake, following many years that he spent in the Hotel & Leisure industry. Frank identified that there was a need to have a local Island company that could offer a "One Stop Shop" for cleaning and catering supplies.

For new and existing customers the aim of this catalogue is to show simply what would take many words to describe. We are always being told "I didn't know you sold that!" This new catalogue will help you choose your products and assist you in placing an order with us.

We can offer many thousands of products that fulfil the cleaning and supply needs of many businesses. Unfortunately, not every product we sell can be shown in this catalogue so if you have any additional requests, please us on: 408200

Alternatively, we have an extensively stocked showroom at our local premises in Sandown, please come and pay us a visit.

The best product range

Our objective is to offer the best quality product range whilst not forgetting value for money. Through a combination of our own unique "Swan" range and branded products we can offer customers an unrivalled level of choice. We believe we have the "best of the best".

Service support

Our customers like to deal with local people and it is this basic principal that means our service is always friendly, attentive and tailored to meet local needs.

With a fleet of our own vehicles managed by our own operations team means our delivery service is always flexible and urgent requests can be dealt with quickly and efficiently.

Technical support

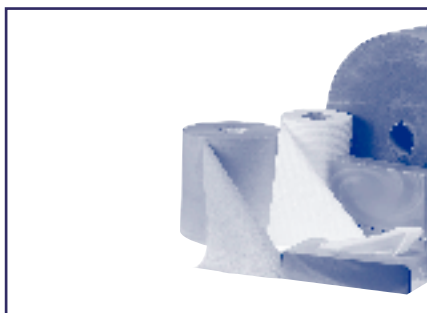

At Lake Cleaning & Catering Supplies we believe our service does not end when we complete a delivery. In a world that has become difficult through legislation and Health & Safety regulations we are here to help and advise you. If you have any cleaning related issues that you might encounter through the day to day running of your business or service please give us a call on: 408200
